About MEETIC, the European online dating leader (www.meetic-corp.com)

Four years after its commercial launch, MEETIC manages seven products (Meetic, Meetic Mobile, Ulteem, Superlol, Lexa, ParPerfeito and eFriendsNet) and markets two highly complementary economic models in the dating market, one for use on the internet, the other for mobile phones. MEETIC is the undisputed leader on the European online dating market with 22.5 million profiles registered on the Meetic site alone since its creation and the largest European audience share* with 28.47 in May 2006 (source: Nielsen/NetRatings) and 8.3 million different visitors in May 2006 (source: Comscore). MEETIC is established in 13 European countries, China and Brazil, and available in 11 languages. From inception the group has pursued a clear leadership strategy focusing on quality, innovative marketing and perfect technological expertise. MEETIC works hard to optimise service quality and to satisfy every possible expectation of its European subscribers. In 2005, MEETIC posted sales of €43m and net profit of €5.7m.

* The audience share is calculated as follows: (number of different visitors at the site x time spent at site) / (number of different visitors in the dating category x time spent in this sub-category) x 100.

H12006 results will be released on 23 October 2006 after the markets close
